- Reset your password
- Vote in polls

What if I don't have a smart phone?

Attendees use the same profile to log in to the app that they use to access the event on the web. In fact, you only need one profile to access any event housed within the Attendify app. As soon as you join an event, you will have access to the same features that are available on the web, like the Activity Stream, Session Chats, Polls, Push notifications, and more.
